Established in 1981 as the Munich International Festival of Film Schools, Filmschoolfest Munich has become one of the most important festivals for emerging filmmakers in the world. In a survey, members of the International Association of Film and Television Schools (CILECT) confirmed that Filmschoolfest Munich enjoys great popularity among its participants.

Young Talent Award Winner
1993

»Besides the financial support I received it was mentally a giant push forward.«

THOMAS VINTERBERG

SCHOOLS

»Not much sleep but plenty of films and a lot of discussions... Without exaggerating, I can say that I'm an old hand at festivals but, in the course of time, there have only been a few of these innumerable events that have such a lasting impression on me... This festival for film students is vital, dynamic, and an enormously important stepping stone to the public for many of these young filmmakers.«
